INDEPENDENT AUDITOR'S REPORT

To the Commissioners
Wood River Drainage and Levee District
Wood River, Illinois

We have audited the accompanying financial statements of Wood River Drainage and Levee District, Illinois, as of and for the year ended September 30, 2019, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified accrual basis of accounting described in Note 1; this includes determining that the modified accrual basis of accounting is an acceptable basis for the presentation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, except for the matter described in the Other Matter – GAAP departure paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position-modified accrual basis of the governmental activities, each major fund, and the aggregate remaining fund information of Wood River Drainage and Levee District, Illinois, as of September 30, 2019, and the respective changes in financial position-modified accrual basis, thereof for the year then ended in accordance with the basis of accounting as described in Note 1.

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified accrual basis of accounting, which is a basis of accounting other than

accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Other Matter – GAAP Departure

As described in Note 1, the capital assets of the District have not been depreciated in accordance with generally accepted accounting principles. The effect of this departure cannot be readily determined. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (pages 3 to 7), budgetary comparison information (pages 23 to 25), and the schedule of changes in net pension liability and related ratios and schedule of contributions (pages 26 to 27) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the other information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

WOOD RIVER DRAINAGE AND LEVEE DISTRICT, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Wood River Drainage and Levee District, Illinois' (District) annual audit presents a management's discussion and analysis of the District's financial activity during the fiscal year ended September 30, 2019. The Management's Discussion and Analysis is designed to focus on current activities, resulting changes and currently known facts and should be read in conjunction with the basic financial statements and footnotes. Responsibility for the completeness and fairness of this information rests with the District.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Management's Discussion and Analysis is intended to serve as an introduction to the District's basic financial statements. There are three components to the basic statements:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the basic financial statements

This report also contains Other Information and Required Supplementary Information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. Changes in net position are reported on the modified accrual basis for the governmental activities.

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are reported in the governmental category of funds.

WOOD RIVER DRAINAGE AND LEVEE DISTRICT, ILLINOIS **MANAGEMENT'S DISCUSSION AND ANALYSIS**

Governmental Funds. Governmental funds are used to account for essential functions reported as governmental activities in the government-wide financial statements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financial decisions. The governmental fund's Statement of Assets, Liabilities and Fund Balances, and the Statement of Receipts and Disbursements (modified accrual basis) provide a reconciliation to facilitate this comparison between the governmental fund financial statements and the government-wide financial statements.

The District maintains two individual governmental funds. Information is presented separately in the governmental funds Statement of Assets, Liabilities and Fund Balances Arising from Modified Accrual Transactions, and in the governmental fund Statement of Receipts and Disbursements Arising from Modified Accrual Transactions for two funds: General Fund and the Special Revenue Fund.

The District adopts an annual appropriation for all governmental funds. Appropriation comparison schedules for the two funds have been provided to demonstrate legal compliance with the adopted appropriation ordinance.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information. In addition to the basic financial statements and accompanying notes, this report also presents certain Other Information concerning the District's progress in funding its obligation to provide pension benefits to its employees. The District also reports expenditures of its two funds in comparison to appropriated amounts.

Basis of Accounting. The District presents its financial statements on the modified accrual basis of accounting. The modified accrual basis of accounting is a basis of accounting other than generally accepted accounting principles. Basis of accounting is a reference to when financial events are recorded, such as the timing for recognizing revenues, expenses, and their related assets and liabilities. Under the District's modified accrual basis of accounting, revenues and expenses and related assets and liabilities are recorded when earned and expended, except for the recording of depreciation expense related to capital assets in the government-wide financial statements for all activities.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The District presents its financial statements under the reporting model pursuant to Governmental Accounting Standards Board Statement No. 34 (GASB 34), Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$5,062,524 at the close of the most recent fiscal year.

A large portion of the District's net position reflects its investment in capital assets (e.g., land, buildings, equipment and infrastructure), less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to citizens; consequentially, these assets are not available

WOOD RIVER DRAINAGE AND LEVEE DISTRICT, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS

for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay any debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The condensed statement of net position is as follows:

	Governmental Activities		Change
	September 30, 2019	September 30, 2018	
Current and other assets	\$ 2,955,120	\$ 3,119,246	\$ (164,126)
Capital assets	2,046,454	2,046,454	-
Net Pension Asset and Deferred Outflows of Resources	260,121	-	260,121
Total assets	<u>5,261,695</u>	<u>5,165,700</u>	<u>95,995</u>
Current and other liabilities	39,934	96,137	(56,203)
Non-current liabilities	-	-	-
Deferred Inflows of Resources	159,237	-	159,237
Total liabilities	<u>199,171</u>	<u>96,137</u>	<u>103,034</u>
Net position:			
Net investment in capital assets	2,046,454	2,046,454	-
Restricted	312,514	233,182	79,332
Unrestricted	2,703,556	2,789,927	(86,371)
Total net position	<u>\$ 5,062,524</u>	<u>\$ 5,069,563</u>	<u>\$ (7,039)</u>

Total net position decreased \$7,039 resulting in a balance of \$5,062,524 as of September 30, 2019. Total current assets, which are comprised of cash and cash equivalents, decreased \$164,126. Non-current assets remained unchanged.

The change in net position is further examined in the Analysis of Net Position section of the MD&A.

ANALYSIS OF NET POSITION

Analysis of Net Position	2019		2018	
	Percent	Amount	Percent	Amount
Net investment in capital assets	40.4%	\$ 2,046,454	40.4%	\$ 2,046,454
Restricted	6.2%	312,514	4.6%	233,182
Unrestricted	53.4%	2,703,556	55.0%	2,789,927
Total net position	100.0%	<u>\$ 5,062,524</u>	100.0%	<u>\$ 5,069,563</u>

The District had an decrease in net position of \$7,039 for the government-wide financial statements for the year ended September 30, 2019. Capital net asset balances remained unchanged in the current year. The combined restricted and unrestricted net position balances changed by the net income of operating activities.

WOOD RIVER DRAINAGE AND LEVEE DISTRICT, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS

The revenue and expenditure comparisons that comprise the current year increase follow.

REVENUE COMPARISON BY TYPE

<u>Governmental activities</u>	<u>2019</u>	<u>2018</u>
Assessment	\$ 887,423	\$ 900,712
Charges for services	196,909	212,889
Investment earnings	25,231	25,580
Miscellaneous	300	1,801
Total revenues	<u>\$ 1,109,863</u>	<u>\$ 1,140,982</u>

Total revenues for the governmental activities decreased \$31,113 for the year ended September 30, 2019. The increase is largely due to a drop in assessments and charges for services.

EXPENDITURES BY CATEGORY

<u>Expenditures by category</u>	<u>2019</u>		<u>2018</u>	
	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>
General Government	19.8%	\$ 243,515	14.4%	\$ 115,967
Drainage	80.2%	983,366	85.6%	686,623
Total expenditures	100.0%	<u>\$ 1,226,881</u>	100.0%	<u>\$ 802,590</u>

Total capital outlay expenditures for governmental activities in the current year totaled \$0.

BUDGETARY HIGHLIGHTS

The District's expenditures did not exceed the approved budget in any of the four major budgetary funds. A comparison of budget and actual is as follows:

	<u>Budget</u>	<u>Actual</u>
General Fund	\$ 1,628,727	\$ 1,217,786
Special Revenue Fund	\$ 16,800	\$ 35,676

CAPITAL ASSETS

The District's investment in capital assets as of September 30, 2019 amounted to \$2,046,454. This investment in capital assets includes land, buildings, infrastructure, equipment and vehicles.

There were no current year additions.

Additional information related to capital assets can be located in Note 3 of the financial statements.

**WOOD RIVER DRAINAGE AND LEVEE DISTRICT, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS**

LONG-TERM DEBT

At September 30, 2019, the District reported no outstanding debt.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of Wood River Drainage and Levee District, Illinois, for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Wood River Drainage and Levee District, 543 W. Madison Ave, Wood River, IL 62095.

WOOD RIVER DRAINAGE AND LEVEE DISTRICT, ILLINOIS

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 1: SUMMARY OF SIGNIFICANT POLICIES

The Wood River Drainage and Levee District ("District") was organized and placed into operation in 1910 by the United States Army Corps of Engineers in an attempt to control the waters of the Mississippi. The District operates under an appointed commissioner form of government and is authorized to perform the services of controlling flood waters and maintaining the levee system.

The financial statements of the District have been prepared in conformity with the modified accrual basis of accounting for the Governmental Fund Types as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

(a) The financial reporting entity

The District's reporting entity includes the district's governing board and all related organizations for which the district exercises oversight responsibility.

The District has developed criteria to determine whether outside agencies with activities which benefit the citizens of the District should be included within its financial reporting entity. The criteria for including organizations as component units within the District's reporting entity, as set forth in Section 2100 of GASB's Codification of Governmental Accounting and Financial Reporting Standards, include whether:

- the organization is legally separate (can sue or be sued in their own name)
- the District holds corporate powers of the organization
- the District appoints a voting majority of the organization's board the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is fiscal dependency by the organization on the District

The District is not aware of any entity which would exercise such oversight as to result in the District's being considered a component unit of the entity.

Included in the reporting entity:

There are seven pump stations located in a geographic area that spans approximately twenty five square miles (from Wood River Creek to Cahokia Canal and from Route 3 to Route 111, are broad local parameters). Essential to inclusion in the District as an entity is any employee, property and/or equipment used (employed) and owned by the District for the purpose of controlling floodwaters and maintaining the levee.

(b) Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. The District has only governmental activities which normally are supported by assessments and charges for services.

WOOD RIVER DRAINAGE AND LEVEE DISTRICT, ILLINOIS
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

The statement of activities demonstrates the degree to which the direct disbursements of a given function or segment are offset by program receipts. Direct disbursements are those that are clearly identifiable with a specific function or segment. Program receipts include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program receipts are reported instead as general receipts.

Major individual governmental funds are reported in separate columns in the fund financial statements.

(c) Measurement focus, basis of accounting and financial statement presentation

The District maintains its government-wide financial statements and its fund financial statements on the modified accrual basis of accounting. Accordingly, receipts are recorded when earned and disbursements are recorded when incurred.

The government reports the following major governmental funds:

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

The Alton Pump Station Electric Usage Fund is the District's only Special Revenue Fund. This fund was established to provide for power costs over the next 50 years, starting in 1990. The fund's primary source of revenue was a \$340,000 prepayment from the Corps of Engineers and annual interest earnings.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are reimbursements between funds for direct costs applicable to the other fund. Elimination of these charges would distort the direct costs and program receipts reported for the various functions concerned.

(d) Assets, liabilities and net assets or equity

Deposits and investments

The District's cash and cash equivalents include amounts in demand deposits as well as short-term investments with an original maturity date of three months or less of the date issued. Investments are stated at fair value.

The District is authorized by state statute to invest in obligations of the United States of America, insured interest bearing accounts of banks, savings and loan associations or credit unions, certain short-term obligations of corporations organized in the United States, money market mutual funds that invest in obligations of the United States of America or its agencies or are guaranteed by the full faith and credit of the United States of America, the Illinois Funds and repurchase agreements of government securities. Investment income is recognized when received.

Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds".

WOOD RIVER DRAINAGE AND LEVEE DISTRICT, ILLINOIS
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Capital assets

Capital assets, which include property, plant, equipment and infrastructure assets, are reported in the applicable governmental column in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000 for equipment, \$10,000 for buildings and \$50,000 for infrastructure; with an estimated useful life in excess of two years. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Not in accordance with generally accepted accounting principles, no provision is made for depreciation of such assets and depreciation is not reflected in the basic financial statements. Capital assets consisting of certain improvement other than building including drainage have not been capitalized.

Compensated absences

Due to the District preparing its financial statements on the modified accrual basis of accounting, no liability for these amounts have been reported in these financial statements. Vested or accumulated vacation and sick leave are not reported. Employees of the District are not allowed to accumulate unlimited unused sick leave. Employees take their vacations annually after vacation time is earned and is reported as expense when actually paid to the employee.

Long-term obligations

All long-term debt, arising from modified accrual basis transactions, are reported as liabilities in the government-wide statements.

Long-term debt arising from modified accrual basis transactions of governmental funds are not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and the payment of principal and interest is reported as disbursements. The District has no long-term debt as of September 30, 2019.

Estimates

Management uses estimates and assumptions in preparing these financial statements in accordance with the modified accrual basis of accounting. These estimates and assumptions affect the reported amounts of assets, liabilities, receipts and disbursements. Actual results could vary from estimates that were used.

Risk Management

The District is exposed to various risks of loss related to torts; thefts of, damage to and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. There have not been any significant reductions in coverage from the prior year and claims have not exceeded coverages in the past three years.

Equity classification

Government-wide statements

Equity is classified as net position and displayed in three components:

WOOD RIVER DRAINAGE AND LEVEE DISTRICT, ILLINOIS
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

- a. Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any debt that is attributable to the acquisition, construction or improvement of those assets.
- b. Restricted net position - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position - All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

Fund financial statements

Governmental fund equity is classified upon the following criteria:

Non-spendable - balances that are not in "spendable" form and are not expected to be converted to cash. This category also includes funds required to be retained in perpetuity.

Restricted - balances with restrictions that are either externally imposed by creditors or imposed by law through constitutional provisions or enabling legislation.

Committed - balances that are to be only used for specific purposes pursuant to constraints imposed by formal action of the District Board, the government's highest level of decision-making authority.

Assigned - balances that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed.

Unassigned - the residual classification of the District's fund balance.

When expenditures are incurred for which the District has both restricted and unrestricted funds available, the District spends any restricted funds before using unrestricted sources. Likewise, the District uses committed, assigned and then unassigned balances, in that order, when spending amounts for which all three categories are available. The following details the description and amount of all constraints recorded by the District in the fund financial statements:

Governmental Funds

Restricted:

Alton Pump Station	\$	202,535
	\$	<u>202,535</u>

WOOD RIVER DRAINAGE AND LEVEE DISTRICT, ILLINOIS
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

(e) Appropriation accounting

The appropriation for all funds is prepared on the budgetary basis of accounting which is the same basis that is used in financial reporting. This allows for comparability between appropriated and actual amounts. The appropriation was passed on March 5, 2019.

NOTE 2: CASH AND INVESTMENTS

As of September 30, 2019, the carrying amount of the District's cash and cash equivalents was \$1,466,951 and the respective bank balances totaled \$1,481,088. The deposits were comprised of money market checking accounts and all balances are reported at fair value. Investments consisted of certificates of deposit. As of September 30, 2019, the carrying amount and bank balances of the District's investments was \$1,479,525.

Custodial Credit Risk. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District requires that all deposits be fully covered by FDIC insurance or collateralized with investments held by the financial institution in the District's Name.

As of September 30, 2019, the District's investments were under-collateralized in the amount of \$529,525.

Interest Rate Risk. As of September 30, 2019, the District did not have interest rate risk.

Concentration of Credit Risk. As of September 30, 2019, the District did not have a concentration of credit risk.

Foreign Currency Risk. As of September 30, 2019, the District did not have foreign currency risk.

NOTE 3: CAPITAL ASSETS

Capital asset activity for the year ended September 30, 2019 are as follows:

Governmental Activities	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets:				
Land and Improvements	\$ 216,131	-	-	\$ 216,131
Buildings and Improvements	617,548	-	-	617,548
Equipment	990,110	-	-	990,110
Furniture	14,102	-	-	14,102
Infrastructure	208,563	-	-	208,563
Total capital assets	\$ 2,046,454	-	-	\$ 2,046,454

NOTE 4: ASSESSMENT

The District's assessment is authorized each year on land located in the District in December. The board passed the 2019 assessment on November 20, 2018 and it was approved by a judge on

WOOD RIVER DRAINAGE AND LEVEE DISTRICT, ILLINOIS
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

November 27, 2018. The assessment is included with Property tax bills and attached as an enforceable lien on property as of January 1 and are payable in four installments. The District receives significant distributions of assessment receipts beginning in June and July of each year.

NOTE 5: RETIREMENT FUND COMMITMENTS

Illinois Municipal Retirement Fund

Plan Description. The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The Plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained on-line at www.imrf.org.

Funding Policy. As set by statute, members are required to contribute 4.50 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer annual required contribution rate for calendar year 2018 was 5.86 percent. The employer also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Covered Employees. The following types of employees comprise the membership of the plan.

Retirees and Beneficiaries	4
Inactive, non-Retired Members	1
Active Members	<u>4</u>
Total	<u>9</u>

Discount Rate. GASB Statement No. 68 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the fund to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. As long as assets are projected to be on hand in a future year, the assumed valuation discount rate is used. In years where assets are not projected to be sufficient to meet benefit payments, the use of a "risk-free" rate is required, as described in the following paragraph.

WOOD RIVER DRAINAGE AND LEVEE DISTRICT, ILLINOIS
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

The *Single Discount Rate* (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.50%; the municipal bond rate is 3.71%; and the resulting single discount rate is 7.25%.

Actuarial Valuation Date	12/31/2018
Measurement Date of the Net Pension Liability	12/31/2018
Fiscal Year End	9/30/2019
Development of the Single Discount Rate as of December 31, 2018	
Long-Term Expected Rate of Investment Return	7.50%
Long-Term Municipal Bond Rate	3.71%
Last year ending December 31 in the 2019 to 2118 projection period for which projected benefit payments are fully funded	2118
Resulting Single Discount Rate based on the above development	7.25%
Single Discount Rate calculated using December 31, 2017 Measurement Date	7.50%

The Long-Term Municipal Bond Rate is based on the Fidelity Index's "20-Year Municipal GO M Index" as of December 31, 2018.

Actuarial Assumptions. The following are the actuarial assumptions used in the calculation of the net pension liability.

Actuarial Cost Method	Aggregate Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	25 year closed period
Period	Early Retirement Incentive Plan liabilities: a period up to 10 years selected by the employer upon adoption of ERI.
Asset Valuation Method	5-Year smoothed market; 20% corridor
Wage Growth	3.50%
Price Inflation	2.75% - approximate; No explicit price inflation assumption is used in this valuation.
Salary Increases	3.75% to 14.5% including inflation
Investment Rate of Return	7.50%

WOOD RIVER DRAINAGE AND LEVEE DISTRICT, ILLINOIS

Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2014 valuation pursuant to an experience study of the period 2011-2013.
Mortality	RP-2014 Blue Collar Health Annuitant Mortality Table, adjustments to match current IMRF experience.

Net Pension Liability. The following is a summary of the Net Pension Liability as disclosed in the financial statements.

Total pension liability	
Service Cost	\$ 22,142
Interest on the Total Pension Liability	76,697
Changes of benefit terms	-
Difference between expected and actual experience of the Total Pension	(60,780)
Changes of assumptions	21,853
Benefit payments, including refunds of employee contributions	<u>(36,054)</u>
Net change in total pension liability	23,858
Total pension liability - beginning	<u>1,029,577</u>
Total pension liability - ending	<u>\$ 1,053,435</u>
Plan fiduciary net position	
Contributions - employer	\$ 13,311
Contributions - employee	10,222
Net investment income	(54,738)
Benefit payments, including refunds of employee contributions	(36,054)
Other	<u>14,878</u>
Net change in plan fiduciary net position	(52,381)
Plan fiduciary net position - beginning	<u>1,215,795</u>
Plan fiduciary net position - ending	<u>\$ 1,163,414</u>
Net pension liability/(asset)	<u>\$ (109,979)</u>
Plan fiduciary net position as percentage of the total pension liability	110.44%
Covered valuation payroll	\$ 227,165
Net pension liability as a percentage of covered valuation payroll	-48.41%

WOOD RIVER DRAINAGE AND LEVEE DISTRICT, ILLINOIS
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

To report the sensitivity of the net pension liability to the selected discount rate, the following table displays the variation given a 1% increase or decrease.

	<u>Current Single Discount</u>		
	<u>Rate</u>		
	<u>1% Decrease</u>	<u>Assumption</u>	<u>1% Increase</u>
	6.25%	7.25%	8.25%
Total Pension Liability	\$ 1,149,875	\$ 1,053,435	\$ 970,821
Plan Fiduciary Net Position	1,163,414	1,163,414	1,163,414
Net Pension Liability/(Asset)	<u>\$ (13,539)</u>	<u>\$ (109,979)</u>	<u>\$ (192,593)</u>

NOTE 6: INTERFUND ACTIVITY

Interfund activity for the year ended September 30, 2019, consisted of the following:

<u>Due To</u>	<u>Due From</u>
	<u>Special Revenue</u>
	<u>Fund</u>
General Fund	\$ 68,327
Total	<u>\$ 68,327</u>

NOTE 7: LEGAL

The former bookkeeper for the District was arrested and charged with embezzlement during the year ended September 30, 2018. A subsequent forensic audit of accounting records placed the District's loss at \$158,110. At the issue date of these financial statements the former bookkeeper is awaiting trial. The full amount of the loss has been recovered through an insurance claim subsequent to September 30, 2019.

NOTE 8: SUBSEQUENT EVENTS

The District has evaluated events occurring after the financial statement date through March 5, 2020, in order to determine their potential for recognition or disclosure in the financial statements. The latter date is the same date the financial statements were available to be issued.

Valuation Date:

Notes: Actuarially determined contribution rates are calculated as of December 31 each year, which is 9 months prior to the end of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2018 Contribution Rates

Actuarial Cost Method	Aggregate Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	Non-Taxing bodies: 10-year rolling period. Taxing bodies (Regular, SLEP and ECO groups): 26-year closed period. Early Retirement Incentive Plan liabilities: a period up to 10 years selected by the Employer upon adoption of ERI.
Asset Valuation	5-Year smoothed market; 20% corridor
Method Wage Growth	3.50%
Price Inflation	2.75% - approximate; No explicit price inflation assumption is used in this valuation.
Salary Increases	3.75% to 14.50% including inflation
Investment Rate of Return	7.50%
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2014 valuation pursuant to an experience study of the period 2011-2013.
Mortality	For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that applied from non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

If the Chief Executive Officer and the Chief Financial Officer are the same person as the Contact Person, please check this box and skip to Step 2.

Unit Name : Wood River Drainage District

Unit Code : 057/080/05

STEP 2: VERIFY FISCAL YEAR END

FY END DATE: 9/30/2019

If the fiscal year end date listed above is incorrect, cross out the incorrect date and provide the correct date. Official documentation of this change must be sent to the Chicago office before the fiscal year end date is officially amended.

STEP 3: POPULATION AND EAV

P1. Has your government commenced dissolution proceedings? ___ Yes X No **Dissolution Filing Date** ___

What is the total population / school enrollment of Wood River Drainage District?^	47,898
What is the total EAV of Wood River Drainage District?	\$0

^ Or provide estimated population.

STEPS 4 AND 5: COMPONENT UNITS AND APPROPRIATIONS

If you are a primary unit of government, provide the Unit Name and appropriation in the first row of the table below and list any component unit(s).

Name of Unit/Component	Appropriation^	Fiscal Year End
FUNDS SHOULD NOT BE LISTED HERE*		
Wood River Drainage District	\$1,645,527	09/30
Total Appropriations	\$1,645,527	

* Do not enter funds such as Joint Bridge, Permanent Road, Town Fund, Equipment, Water & Sewer, General Assistance, etc.

^ If the Primary Government or Component Unit does NOT budget or pay component unit's TOTAL EXPENDITURES.

Unit Name : Wood River Drainage District

Unit Code : 057/080/05

STEP 6: REPORTING

Check any state or local entity where financial reports are filed.
